

Kissinger Hu

Senior UX/UI Product Designer

Sydney, NSW | 0415 056 842 | huweina98@gmail.com

Portfolio: kissingerhu.com | LinkedIn: linkedin.com/in/kissingerhu

Five years designing enterprise, fintech and client products. Most recently the sole designer across SLSA's national platforms. Specialise in simplifying complex rules, operational data and legacy workflows, with ownership from user feedback and design direction through implementation QA.

Experience

Surf Life Saving Australia (SLSA)

UI/UX Designer

May 2023 - May 2026 | Sydney

Sole designer across member and operational products serving SLSA's network of 200,000+ members across 316 clubs. Partnered with 1-2 BAs, an architect, 7-9 developers, 2 QA specialists and business stakeholders.

SLS Hub - National Member Portal | Live since 2024

- Replaced the legacy Members Area with a consistent desktop and mobile portal, unifying member services and administration through rule-based visibility and contextual actions.
- Held near-monthly reviews with users of individual modules, using feedback to revise flows and align stakeholders before implementation.

SurfGuard - Core System Modernisation

- Reworked overcrowded single-page screens with small text and limited table controls into structured workflows with clearer hierarchy, search, filtering and data interactions, preserving permissions and business rules.
- Established approximately 50 reusable Figma components and patterns, including four tailored to SLSA. Mapped Confluence requirements to UI behaviour and supported delivery through Jira stories and QA.

Member Join & Registration

- Restructured joining and renewal across the website, Hub and SurfGuard. Surfaced membership type, club options and fees before account creation, then guided users through family, guardian and payment steps.
- Connected public guidance, member transactions and admin approvals while preserving safeguarding and payment records. Design V1 completed; implementation pending.

SurfCom ICEMS - Emergency & Incident Management

- Refined incident and notification workflows for operational users, prioritising readable information, clear actions and reliable communication in time-critical situations.

Life Byte System

UI/UX Designer

Jan 2023 - May 2023 | Sydney

HubX - B2B Fintech Platform | Launched & delivered

- Independently owned UX/UI for fund managers and clients, structuring complex forms, data-ingestion workflows, dashboards, charts and high-density portfolio views.
- Defined reusable data-grid, form and card patterns, documenting field rules and interactions so engineering and QA shared clear criteria. Supported implementation through launch and client delivery.

Async Working

UI/UX Designer (Project Contract)

Apr 2022 - Jan 2023 | Melbourne

CourtCanva - Client Sports-Court Platform

- Owned UX/UI across court customisation, quoting and purchase journeys, including the visual treatment of configurable courts and an upgrade to the overall product style.
- Resolved evolving client requirements and interaction decisions with BAs and developers. The project was still progressing toward release when the role ended.

Freelance

UI/UX Designer

Jun 2021 - Apr 2022 | Sydney

- NOOTEE: Independently designed a client-commissioned note-taking application, using surveys, interviews and competitor research to shape shared organisation, media-rich notes and information retrieval.
- JR Food Court: Designed an internal mobile ordering and table-booking app, owning task flows, navigation, interface design and visual assets from the initial brief through handoff.

Expertise & tools

Complex workflows / Information architecture / User research & usability evaluation / Interaction design / Responsive UI / Design systems / Accessibility / Stakeholder alignment / Implementation QA

Figma / Jira / Confluence / Adobe Photoshop & Illustrator / Claude / ChatGPT

AI practice: Designed and built kissingerhu.com with Claude-assisted coding, retaining ownership of layout, interaction and content. Use AI for exploration and prototypes, reviewing outputs before use.
